Thimphu

**SUB: Technical Clearance for Drawings/Designs for Tourist Standard Hotel**

Dear Dasho,

We have received a drawing for the construction of 36 rooms for a tourist standard accommodation from ~~Dasho Thrompon~~ under Thimphu Thromde.

TCB has reviewed the drawing based on the "Hotel Drawing Guidelines" with reference to the approved "Standardization and Classification System of Accommodations in Bhutan 2016-2020" and we would like to inform that the drawing meets the required specifications for tourist's standard accommodation. The accommodation would be assessed and rated upon completion of the construction. Further, we would like to request the stakeholders to be aware of the concerns of oversupply of tourist standard accommodations in areas such as Thimphu, Paro and Punakha.

The validity of this approval shall be for **one year** from the date of issue. Any other clearances/licenses required for the construction would have to be processed accordingly by the promoter.

Thanking you,

Yours Sincerely,

(Rinzin Jamtsho)

Head

Infrastructure and Product Development Division
